

Research checklist

Relevant

Check the relevance by reading the overview, abstract and/or introduction.

Do you think the information will match your needs?

Objective

Do the writers state their position on the issue in the overview, abstract and/or introduction?

Do they use emotive language?

Do they have vested interests?

Research methods

Is it clear how the data was collected?

Were the methods appropriate?

Do you trust them?

Current

Is the information up to date?
